

2024 Valdez Fly In Pilot information

Pilot Information

This year the FAA has specified different frequencies for Valdez Tower, Air Show and Ground. **These will be used when the tower is open. Listen to AWOS 118.8 and this will be on the NOTAM as well for tower hours of operation.**

Frequencies:

Juneau FSS: 122.2

Valdez AWOS: 118.8

Valdez Tower: 118.2

Valdez Ground: 123.65

Valdez Air Boss: 119.95

When the tower is OPEN use the below reporting points for your INITIAL contact. Further reporting is not needed unless requested by the tower 118.2

If you are coming in when the **tower is not open** then use the following frequency and reporting points:

Use of the CTAF 122.9

Common Reporting points arriving from the West over the water

Gold Greek

Mineral creek

Over the City / Boat Harbor

Shoreline

Straight in for Runway 6

Left Downwind Runway 24

Common Reporting points arriving from the East, Thompson Pass

Keystone Canyon

Robe Lake

Ball Fields

Glacier Stream

Entering Mid Field Left Downwind Runway 24

Right Downwind Runway 6

- There will be no Flight Service on the field this year. Please Close your Flight Plan with Juneau FSS 122.2
- Valdez Ground is 123.65 and you will be directed to parking. Parking assistance is available. Please park as close as possible (but don't cause hangar rash) to the plane next to you, we need to maximize our parking tie downs! We will have ropes and cables for wing tie downs. All tie downs are at your own risk.
- Airspace will be closed for brief periods during aerobatic displays Friday, Saturday and Sunday. Arrivals will be directed to hold until airspace is open.
- Vertical Solutions will have fuel available. Call 831-0634, \$6.95 per gallon and no call out fee 9-6 Friday, Saturday and Sunday

Thanks for flying into Valdez! We trust you will have an enjoyable weekend of flying and visiting with friends new and old!
